

Pinnacle PlusSM Fixed Annuity

A Multi-Year Guaranteed Annuity

Steady, tax-deferred growth, principal protection, and guaranteed income

Predictability and protection can be a high priority as you get closer to retirement, especially when markets turn volatile. If you are looking for a practical way to supplement your other tax-deferred savings and provide a source of guaranteed income in the future, a Pinnacle PlusSM fixed annuity (FA) may be a good solution.

Pinnacle PlusSM is a fixed, multi-year guaranteed annuity (MYGA)—a type of insurance product—that is designed to help you meet your long-term retirement needs. It is a simple, steady, guaranteed way to build retirement savings without the risk of investing in stocks, bonds, or mutual funds.

Pinnacle PlusSM could be a good fit if you are looking for:

- Protection of your principal
- A guaranteed, fixed interest rate for the period you select
- Tax-deferred growth until you take withdrawals

You can depend on Delaware Life

Delaware Life has decades of annuity innovations and brings you a long history and solid track record. At Delaware Life, we develop smart annuities to address your unique retirement needs.

Multiple guarantee periods

When you purchase a Pinnacle PlusSM contract, you can choose one of four guarantee periods—3, 5, 7, or 10 years—to meet your specific needs, and your interest rate is locked-in for that entire period.

Your money goes to work for you immediately, earning the specified rate for the period you select, regardless of what happens to the stock market or interest rates. As long as you hold your contract for the length of the guarantee period, your principal and the interest you earn are guaranteed.

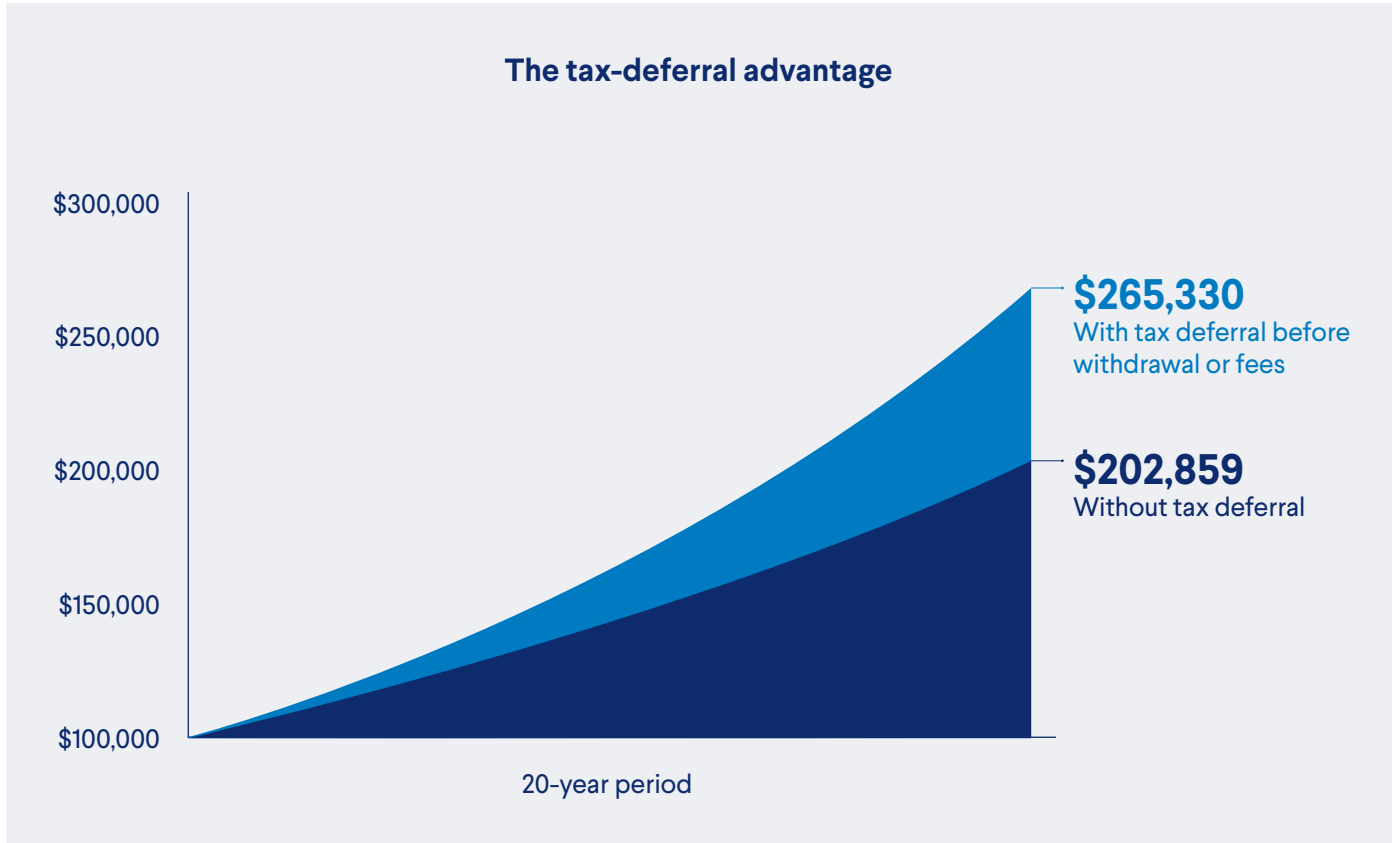

Protection from loss

While the money in a guaranteed annuity may earn less interest over time than if it was invested in the stock market, it's also protected from loss. Because your principal is protected—and any earnings are tax deferred until withdrawn—a guaranteed annuity could be a smart place to keep your extra retirement savings.

Tax-deferred growth

All the earnings in a Pinnacle PlusSM MYGA grow 100% tax deferred, until you start taking withdrawals or income payments. In most cases, that will be after retirement, when your income tax bracket may be lower.

This hypothetical chart illustrates how tax deferral would affect a \$100,000 initial premium, before any withdrawals or fees, during a 20-year period. The chart assumes an annual interest rate of 5% and a federal income tax rate of 28%. Actual tax rates may vary for different taxpayers and assets from those illustrated (for example, capital gains and qualified dividend income). Actual performance of your investment also will vary. Lower maximum tax rates on capital gains and dividends would make the investment return for the taxable investment more favorable, thereby reducing the difference in performance between the examples shown. Consider your personal investment time horizon and income tax brackets, both current and anticipated, when making an investment decision. This example illustrates tax deferral and does not represent the past or future performance of any product. Actual results will vary.

Access to your money

Free withdrawals

You have access to your premium, should you need it, through a free withdrawal feature. Starting in year two of your contract, this feature allows you to take up to 10% of your last contract anniversary value without incurring any surrender charges or any applicable market value adjustment (MVA).*

In addition, there are instances where you may take more than your free withdrawal amount without any of these charges, including:

Surrender charge exceptions	
Required minimum distributions (RMDs)	If you are required to take an RMD that is more than your free withdrawal amount, you may take the entire RMD without a surrender charge.
Nursing home¹	You may withdraw money from your annuity, without a surrender charge, to pay for an eligible nursing home.
Terminal illness¹	You may withdraw money from your annuity, without a surrender charge, to pay for hospice care.

* If you decide to make an early withdrawal of some (or all) of the value of a Pinnacle PlusSM at any time other than the 30-day window before the end of a guarantee period, Delaware Life will also make an MVA to your annuity account. The MVA is equal to the amount withdrawn or surrendered, less any available free withdrawal amount, times the MVA factor, which is linked to the Moody's Bond Indices – corporate average rate. MVA is applicable in all states. California has caps and floors that are applied to the MVA factor. The MVA does not apply to annual penalty-free withdrawals, death benefit payments, terminal illness or nursing home waiver withdrawals, or any amounts withdrawn during the 30-day window at the end of the guarantee period. For more details on the MVA, check with your financial professional.

Annuities are long-term investment vehicles designed for retirement purposes. They are not intended to replace emergency funds, to be used as income for day-to-day expenses, or to fund short-term savings goals. Delaware Life Insurance annuities have limitations, exclusions, charges, termination provisions, and terms for keeping them in force. Please contact your financial professional for complete details.

There is no additional tax benefit to purchasing an annuity within a qualified retirement plan. If you choose to purchase an annuity in a qualified retirement plan, you should do so for reasons other than tax deferral, such as the features and benefits of the annuity.
